

SIMATS ENGINEERING
ASSESSMENT TOOL 3: MCQ Test

COURSE NAME:	Cloud Computing and Big Data Analytics	COURSE CODE:	CSA15
---------------------	---	---------------------	-------

COURSE OUTCOME COVERED

CO3: *Implement cloud-based solutions using cloud storage, web APIs, and platform services for real-world applications. (BL3)*

Assessment Tool Weightage: 10%

Dave's Taxonomy: Precision (Level 3)
Question Count: 15

Total Marks: 30

Code of Conduct

I _G.JAAHNAVI(192525277) ____ (Name / Reg No) certify that this submission is my original work and that I have adhered to the guidelines specified for this assessment.

I understand that any violation of academic integrity rules will result in disciplinary action. Signature of the student: __G.Jaahnavi _____

Assessment Tasks MCQ Test

1. Which cloud storage model is best suited for storing virtual machine disks?

- A. Object storage
- B. **Block storage**
- C. File storage
- D. Archive storage

2. Which protocol style is widely used for lightweight web APIs in cloud platforms? A.

SOAP only

- B. **REST**
- C. FTP
- D. SMTP

3. Serverless computing is best described as:

- A. Computing without networks
- B. **Running code without managing servers directly**
- C. Local execution only
- D. Batch-only processing

4. Edge computing primarily helps by:

- A. Increasing central storage only

B. **Reducing latency near data sources**

C. Eliminating internet access

D. Replacing cloud storage fully

5. Fog computing differs from edge computing because it:

A. Always runs inside sensors

B. **Introduces an intermediate distributed layer between edge and cloud**

C. Works only in private clouds

D. Uses no network resources

6. Which storage model is commonly used for shared departmental files?

A. **File storage**

B. Register storage

C. Cache-only storage

D. Tape-only storage

7. A browser calling a cloud web application typically communicates through:

A. BIOS interrupts

B. **Web APIs**

C. Only command-line tools D. VPN tunnels only

8. SAN stands for:

A. Secure Access Node

B. **Storage Area Network**

C. Shared Application Namespace

D. Service Access Network

9. Which of the following is a common benefit of serverless architecture?

A. Manual scaling of servers

B. **Pay-per-use execution model**

C. Dedicated physical hardware ownership

D. No monitoring required

10. Collaboration within the cloud usually improves:

A. **Shared access to services and documents**

B. Hardware disposal speed

C. Cable management

D. BIOS configuration

11. Which one is an example of a platform service?

A. **Managed application runtime**

B. Keyboard driver

C. Physical rack switch only

D. Local USB storage

12. Object storage is generally preferred for:

A. Mounting OS boot volumes

B. **Large unstructured cloud data such as images and backups**

C. CPU scheduling

D. Hypervisor installation

13. Which component allows applications to communicate programmatically with cloud services? A.

Heat sink

B. **Web API**

C. Mouse driver

D. Compiler cache

14. A low-latency smart factory use case is best supported by:

A. **Edge computing**

B. Cold archive only

C. Offline storage

D. Manual processing

15. Which one is not a typical cloud access method?

A. Browser-based access

B. API access

C. Platform console access

D. **Paper-based access**

MCQ Test Rubric

Criteria	Weightage	Level 4 - Exemplary	Level 3 - Proficient	Level 2 - Developing	Level 1 - Beginning
Conceptual Understanding	30%	Answers reflect strong and accurate concept mastery	Mostly accurate understanding	Partial understanding	Weak understanding
Accuracy of Responses	30%	Nearly all responses are correct	Most responses are correct	Some responses are correct	Few responses are correct
Application Awareness	15%	Shows strong recognition of practical cloud use cases	Reasonable recognition	Limited recognition	Weak recognition
Time Management	10%	Completes assessment efficiently	Completes on time	Needs extra time	Unable to finish well
Question Interpretation	15%	Interprets all items correctly	Misreads very few items	Misreads several items	Frequently misinterprets questions
